CAREER OBJECTIVE

Motivated Software Engineer with practical experience in web development, software testing, and full-stack application development. Skilled in JavaScript, Python, C, C#, React, Next.js, Firebase, MySQL, and MongoDB, with experience deploying applications using modern cloud platforms. Eager to leverage strong problem-solving abilities and technical skills to build high-quality software solutions in a collaborative environment.

EDUCATION

B-Tech in Computer Science and Design <i>Viswajyothi College of Engineering and Technology</i> CGPA - 7.86/10	2022 – 2026 Muvattupuzha, India
Minor Degree in Electronics and Communication Engineering (ECE) <i>APJ Abdul Kalam Technological University</i> Completed alongside B.Tech	2023 – 2026 Muvattupuzha, India
Higher Secondary Education <i>Government Higher Secondary School</i> Percentage - 93.4%	2020 – 2022 Pezhakkappilly, India
SSLC <i>Nirmala Higher Secondary School</i> Percentage - 98%	2019 – 2020 Muvattupuzha, India

TECHNICAL SKILLS

• Programming Languages: JavaScript, Python, C, C# • Databases: MySQL, MongoDB, Firebase, Supabase • Development Practices: SDLC, Debugging, Version Control • Testing & QA: Manual Testing, Functional Testing, Bug Tracking	• Web Technologies: HTML, CSS, React.js, Next.js • Software Engineering: OOP, Data Structures, MVC Architecture, RESTful APIs • Tools: Git, GitHub, VS Code, Unity • Deployment: Vercel, Render
---	---

PROJECTS

Sign-Link <i>Sign Language Communication App</i> • Developing a real-time accessibility-focused communication platform using camera-based input. • Implementing sign-to-text, text-to-speech, and live captioning features. • Designed a modular and scalable architecture to support performance optimization. • Strengthened understanding of real-time systems, UI responsiveness, and accessibility design.	09/2025 – 04/2026
--	-------------------

RentFlow

10/2025 – 11/2025

Rent Management Software

- Built a property management dashboard with payment, expense tracking, and reporting features.
- Implemented maintenance prioritization to streamline issue resolution.
- Designed a responsive UI with dark mode, enhancing user experience.
- Followed clean, modular frontend practices aligned with industry standards.

SliceMaster360

01/2025 – 04/2025

VR Unity Game

- Developed a multi-mode VR game using Unity and C#.
- Applied OOP principles, state management, and event-driven programming.
- Optimized gameplay responsiveness through physics and performance tuning.

INTERNSHIP

Mediezy Technologies Pvt Ltd

Ernakulam, India

Software Testing

- Conducted functional and manual testing on web applications to ensure quality and usability.
- Identified, documented, and tracked software defects, improving application reliability.
- Collaborated with developers to validate bug fixes and regression test new features.
- Gained practical exposure to SDLC, QA workflows, and cross-functional collaboration.

ACHIEVEMENTS

Conference Presentation

- Presented the research paper "AI Driven Sign Language Recognition and Bidirectional Communication Systems" at the National Conference on Emerging Computing & Smart Technologies 2026, organized by the Department of Information Technology, Viswajyothi College of Engineering and Technology (March 2026).
- Received a Certificate of Appreciation for contribution and presentation.
